This is to attest, that our

order no.

111 430 - Multi-clamp, Ø 8-10 mm / Ø 16 mm
Steel/hot galvanized

is in conformance with

EN 50164-1
Lightning Protection Components (LPC)
Part 1: Requirements for connection components

Further we confirm, that our two factories are certified according to DIN EN ISO 9001:2000 (DQS Certificate Registration No. 002894 QM).

Our quality assurance system is in accordance with the DIN/VDE regulations and the state of the art which is more important than the DIN standards.

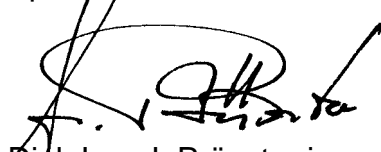

Our developments are also in accordance with new international standards, which are not implemented into national standards yet and the draft versions of European standards.

Our proven and patented articles, which do not have DIN registration numbers, are designed and produced according to the abovementioned aspects.

Neumarkt, 2010-06-15
