All electrical connections must be in accordance with the local code, ordinance, or the national electrical code. If you are unfamiliar with methods of installing electrical wiring, secure the services of a qualified licensed electrician.
Before starting the installation, disconnect the power by turning off circuit breaker, or by removing the fuse box.

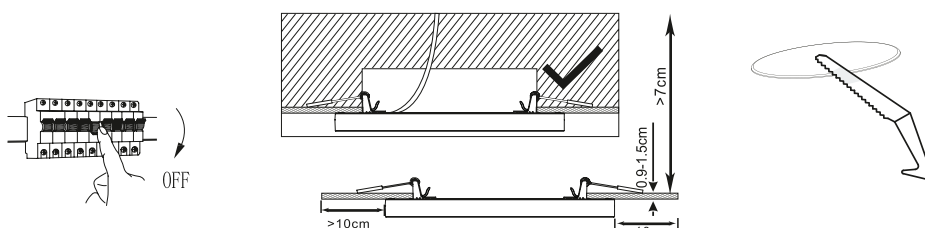

Toate conexiunile electrice trebuie să fie conforme cu codurile și reglementările locale sau cu codul electric național. Dacă nu sunteți familiarizat cu metodele de instalare a cablajului electric, apelați la serviciile unui electrician autorizat calificat.
Înainte de a începe instalarea, întrerupeți alimentarea cu energie electrică oprind siguranța automată sau scoțând siguranța.

Minden elektromos csatlakozásnak meg kell felelnie a helyi előírásoknak, rendeleteknek vagy az országos elektromos előírásoknak. Ha nem ismeri az elektromos vezetékek beszerelésének módjait, vegye igénybe szakképzett villanyszerelő szolgáltatását.
A telepítés megkezdése előtt kapcsolja ki a megszakítót, vagy távolítsa el a biztosítékdobozt.
